## RINCON FUNDING SUPPORT

Rincon's Water team leads water resource planning, regulatory compliance, funding support, and project approvals, with emphasis on coalition building and interested party engagement.

### Our funding acquisition focuses on:

- Drinking water treatment and conveyance
- Groundwater sustainability
- Clean water, wastewater, and stormwater
- Recycled water and brackish groundwater
- Climate action, adaptation, and resilience
- Conservation and drought contingency
- Nature-based solutions and environmental benefits
- Flood management and response

We research, identify, and successfully apply for available grants to support initiatives across the water resources and climate adaptation spectrum. We have secured millions of dollars to support planning, design and implementation of real-world projects.

## A Sampling of Funding Programs Available:

### **Drinking Water Treatment and Conveyance**

State Water Resources Control Board, Drinking Water State Revolving Fund

### **Groundwater Recharge and Replenishment**

Department of Water Resources, Sustainable Groundwater Management Grant Program

### **Wastewater Collection, Treatment, and Discharge**

State Water Resources Control Board, Clean Water State Revolving Fund

### **Habitat Protection and Restoration**

Department of Water Resources, Urban Streams Restoration Program & Department of Fish and Wildlife, Restoration Grant Programs

### **Recycled Water and Brackish Groundwater Reuse**

U.S. Bureau of Reclamation, Title XVI Water Reclamation and Reuse Program

### **Climate Action, Adaptation, and Resilience**

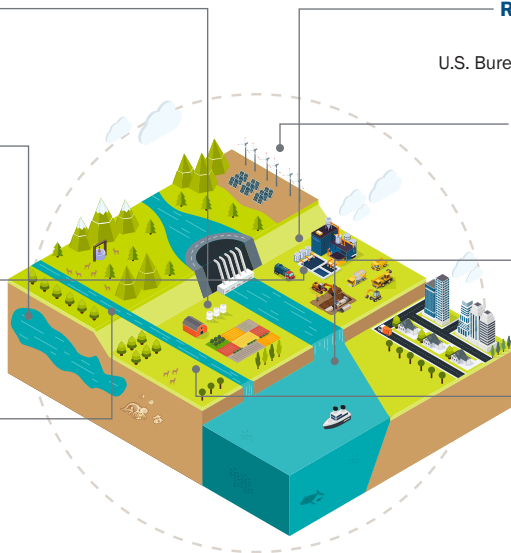

Office of Planning and Research, Integrated Climate Adaptation and Resiliency Program

### **Conservation and Drought Contingency**

U.S. Bureau of Reclamation, multiple WaterSMART Grant Programs

### **Flood Management and Response**

Federal Emergency Management Agency, Building Resilient Infrastructure and Communities
